Have. Well I told you I'd tell you,
 so I hope that's good enough. Cause I don't
 have enough room here, to shower you
 with any more lavish compliments.
 But you can really believe me when I say

 GOOD LUCK

I Will Everget.

There are places within our ranks reserved for three who today would be with us in body had they not been intercepted by the Great Creator of Time.

Those of us who knew them have kept a place for each one in our hearts, and they live on in memory; in spirit. And so it is that we do not consider them gone from us, for it is real that they are with us even now, sharing our mixed emotions upon reaching the crossroads of a new future.

In this small space we wish to humbly pay tribute to these classmates who were once--and still are--a part of us in the drama of life.

"Life is a fragment, a moment between two eternities, influenced by all that has preceded, and to influence all that follows."

Now is the time to close another year and the time to enclose the memories and events of this year within our Treasure Chest -- to relive some thrills, to recall some thrills, to recall some special day; but, more important, now is the time to measure your worth to yourself, to your school, to your country, to your faith.

Seniors -- you are about to prove to yourself and to the world your true worth as a student in college or as a member of the business world and, above all, as a citizen of these our United States. We, as teachers and parents, trust that Rogers has helped instill in you a real patriotism and not a mere mouthing of "I pledge allegiance."

Underclassmen -- you still have time; time to measure your shortcomings and to prepare yourself. Our times demand excellence; nothing but your very best will do.

Dear Cheryl,
Here we are seniors at last. This year.
I haven't seen you too often this year. Maybe
we should get together this summer. Maybe
we'll even have some classes together
next year. Certainly hope you have had
a neat time this year.
Best of luck,
Susan Bottom

Noxon Rapids Dam, built by the Washington Water Power Company on the Clark Fork River, brings 400,000 kilowatts of new electricity for Inland Empire progress. A product of private industry, Noxon was built without cost to taxpayers.

We Can't Stand Still!

The Washington Water Power Company has been identified with dependable utility service for most of the past three-quarters of a century.

It is the reputation of a community builder, however, that we value most. Each year we have found new trails to cut, new horizons to cross, new ways to serve.

WWP's pledge to today's graduates, as well as to its other fellow citizens, is to continue, undiminished, this tradition of helping build your community.

Cheryl,

It sure has been a lot of fun this
year with you in Homeroom & Study Hall
and P.E. I only hope we can be in more
classes next year though. We've just
got to get into a class where we can have
a real blast! I think you're one of the
nicest girls here at Rogers and I want
you to know you've helped me out a lot of
times. Stay as sweet as you already
are & good looking in college and
with Steve - or is it somebody else
now?

Best of Luck

God Bless & Keep You!

Cheryl (M.I.R.),

It is indeed a pleasure to sign these annuals and it is indeed a greater pleasure to sign this one. It is not often that one is such honored. Be it life or death I shall not forget this great opportunity. Also to sign the yearbook of one who spends a good percentage of ones time being a walfess, it is great pleasure. Well, now, the three year period of tremendous trials and tribulations in cell block 206 will soon be terminated. I find that, through intense contemplation, that is about ones life expectancy. I am honored to feel that we made it. Being a psychologist is not an easy job with problems and people such as you have revealed to me. I should think you would be more kind to the male race, namely Bruce, Steve, etc, etc, etc. You sort of like to play those kind of games or something, huh? Well, with a little practice I am sure you will be an expert. However, as you well know, do not get caught in your own traps. This may be accomplished by keeping thy nose clean at all times. For a person who works twenty-four hours a day this could present quite a problem. But you have a scheming and prying mind so this will not be too difficult. I suggest however you pick your victims from a wider range. In a town this size well, you know. Oh! I must thank you for all of your kindly advice and I am sure I took it all to heart. You also helped me a lot as far as notes are concerned. Well, I shall sign my 254. I am not as chicken as one may think, but a victim of circumstances. Well, best of luck, seriously, in whatever your attempt in life. Be kind above all else and respect authority. (teachers, parents, etc. - police excluded) Be good this summer and I just might see ya sometime. Best wishes

Cheryl,

On the occasion it gives me
great pleasure to, in accordance
with, and with great joy, ~~to~~ announce
the graduation from this hole (206, even).

On such a glorious occasion I am almost
speechless (I can still write). However,
I will try to make this equal
to the splendor of the moment.

Cheryl,

I'm afraid I can't write
anything as intelligent
as the above one, but
I just want to tell
you how much fun
I've had eating lunch
with you every day. You're
a real swell gal and I
want to wish you all the
luck in the world. I
hope to see you next
year.
